!!!!!!IMPORTANT!!!! READ THIS!!!!SHARE WITHN ALL DRIVERS!!!!!!

HOKULANI AFTERSCHOOL PARKING LOT SAFETY PROCEDURES

To ensure student safety and facilitate traffic flow, the following procedures will be enforced starting Monday, November 21, 2011.

- To limit the congestion in the parking lot, all families are encouraged to arrive **AFTER** students are released from their classes. Classes end at 2:15 most days and 1:30 on Wednesdays. Please allow ten minutes for classes to be excused and for students to reach the waiting area.
- As you enter the parking lot, safety cones establish **ONE** lane of through traffic around the entire parking lot.
- All cars should have a paper placard prominently displayed on the dashboard of their vehicles informing the parking monitors the name and grade of your child. (Please make sufficient copies so all drivers have a placard available. A template is attached and is also available on the school webpage.)
- Absolutely No Parking will be allowed along the red bus curb or in the staff only lot fronting the office. Double parking in front of the teacher's cars that are in marked stalls on the ewa-side of the lot is allowed as long as drivers remain in their vehicles and are prepared to move forward as space allows.
- ALL DRIVERS need to be prepared to maintain the flow of traffic. If your child not be ready as you enter the loading area you should move forward and loop around the lot to pick up your child at a later time.
- We ask all drivers to be patient and to practice safe and courteous behaviors for the safety of all our children.

Thank you for your understanding and cooperation.
